

About the Position:

PMET Resources Inc. is a critical minerals exploration and development company focused on advancing its 100%-owned, district-scale Shaakichiuwaanaan Project located in the Eeyou Istchee James Bay region of Québec, Canada. The Shaakichiuwaanaan Project hosts the largest lithium pegmatite mineral reserve in the Americas and ranks among the 10 largest resources worldwide. It also includes a significant tantalum component. The site also hosts the world's largest pollucite-hosted cesium pegmatite mineral resource. The Shaakichiuwaanaan Project is well positioned to become a major North American hub for critical minerals.

PMET is seeking a full time permanent environmental coordinator with an educational background in environmental management. The environmental coordinator will report to the VP Environment and Approvals and be based out of the Montreal office. Responsibilities may include management of environmental activities at the corporate office and at the Company's exploration camp. The position will be responsible to enact the Company's environmental strategies and initiatives. Position includes regular travel to the North of Quebec and Cree communities.

Key Responsibilities:

- Manage environmental data collection.
- Manage environmental permit applications and ensure annual permit conditions are met.
- Support on site environmental training initiatives and workforce education efforts.
- Lead environmental improvement efforts including waste management and GHG emissions tracking.
- Support Environmental Assessment documentation including quality control of reports and internal review process.
- Ensure detailed tracking of stakeholder questions and support the development of responses with long-term follow-up on action items.
- Support government relations initiatives.
- Support communication with external stakeholders and Indigenous groups, including participation in community information sessions.
- Support preparation of internal communication efforts including regular reports to the Board of Directors on environmental activities and performance.
- Participating in the preparation of the sustainable development report.
- Perform any other related duties.

Education and Qualifications:

- Bachelor's degree in an environment-related field.
- At least 5 years' environmental experience, including experience working directly on mining, exploration or natural resource development projects.
- Excellent communication skills, both oral and written.
- Knowledge of Microsoft applications including Outlook, Powerpoint, Word, Excel and Teams.
- Excellent knowledge of the regulatory framework for environmental approvals in Quebec.
- Knowledge of the indigenous framework in Northern Quebec.
- Bilingual (English and French).

Working Conditions:

- Office-based position in Montreal.
- Regular visits to the Shaakichiuwaanaan site and the Chisasibi region.
- Monday to Friday (this schedule may vary during travel).
